### RV Cover Placement Rules & Conditions

1. All RV covers must be portable structures (e.g., pre-fabricated metal carports) and may not be permanently affixed to the ground by concrete or other permanent means.
2. All RV covers must be securely anchored to the ground in a manner that ensures stability and safety, while avoiding disturbance, damage, or interference with park utilities, including water, sewer, and electrical lines.
3. Guests must coordinate with Park Management prior to installation so that utilities can be properly located and marked.
4. Placement of the cover must remain entirely within the boundaries of the assigned RV site and must not encroach upon roadways, common areas, or neighboring sites.
5. All RV covers must be approved by the Park Management in writing under these rules before installation.
6. The Guest is solely responsible for all costs associated with the purchase, installation, maintenance, and removal of the RV cover.
7. The Park has no obligation to purchase, assume ownership of, or compensate the Guest for any RV cover upon termination of tenancy.
8. Upon vacating the site, the Guest must remove the RV cover within thirty (30) calendar days. Failure to remove the structure within this period will constitute abandonment, and ownership will automatically transfer to the Park without compensation to the Guest.
9. The Park reserves the right to require immediate removal of any structure deemed unsafe, non-compliant, or in violation of these rules.
10. The Guest assumes all liability for injury or property damage arising from the installation, use, or removal of the RV cover and shall indemnify and hold the Park harmless from any related claims.

I, the undersigned Guest, acknowledge that I have read, understood, and agree to comply with the RV Cover Placement Rules & Conditions listed above. I understand that failure to comply may result in revocation of permission and/or removal of the structure at my expense. I further acknowledge that the Park has no obligation to purchase or assume ownership of the structure and that it must be removed within 30 days of vacating the site.
